Dear Mr. McCone:

I am very pleased to have accepted an invitation to be the Chairman of the National Health Agencies appeal among Federal civilian and military personnel. This will be the sixth year in which these national voluntary health organizations conduct this on-the-job drive.

The campaign here in the Washington area will be conducted during the six week period beginning March 1. I am told that campaigns of this type usually have to be extended in order to succeed because some agencies are not geared to take full advantage of the early part of the campaign period. I have asked the campaign office to make sure that we all have the materials and instructions which will enable every agency to get off to a fast start by March 1. I solicit your cooperation in seeing that your agency is organized to put the first part of the campaign to best use. In this way, perhaps we can establish another high mark in contributor participation and campaign income without the necessity of an extension period.

I have decided to use the same general campaign system which proved successful in last year's drive. Accordingly, one of the volunteer Special Assistants who will help me organize the drive will contact you or your staff soon to work out the details of the campaign. Although I will be out of the country during February, I have asked that I be kept informed about the campaign's progress. From time to time I will be in touch with you to advise you of important stages in the progress of the drive.

I appreciate your cooperation and the personal direction and leadership which I know you will give to this important appeal in your agency.

Sincerely yours,

Robert F. Kennedy
